WHY UNIVERSIDAD POLITECNICA DE VALENCIA?

The Universidad Politècnica de Valencia (UPV) is a dynamic, forward-thinking public university that prioritizes research and teaching while keeping close ties to the community in which it operates. It also has a significant international footprint.

- Shanghai Rankings: **Best technological university** in Spain.
- Ranked among the **Top 500** universities in the World.
- Ranked in the **Top 10** universities in Europe for agreements with corporations like Deloitte, Ford, HP, P&G, Schneider Electric, Leroy Merlin, etc.
- Among the **Top 250** universities worldwide with the highest **employability rates**.
- Each of the 3 campuses is furnished with contemporary amenities.
- Cutting-edge computer technology is available throughout.
- Exceptional sports facilities and a rich array of cultural activities are offered.
- ERASMUS: Eligible students in their second year of undergraduate studies can pursue the Erasmus Mundus scholarship

SPANISH FOUNDATION PROGRAM

Apply for our foundation program.

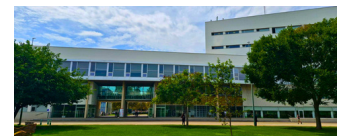

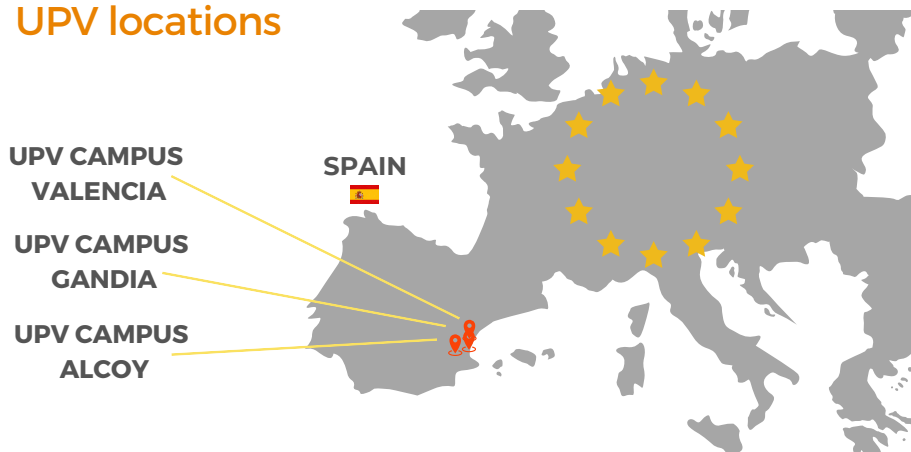

Learn Spanish with **Hablo** at UPV's Valencia or Gandia campus.

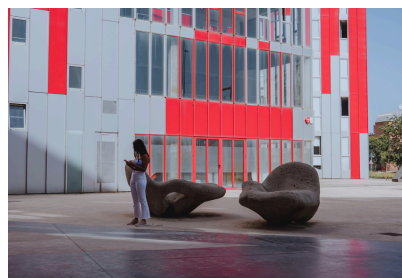

Enroll in your undergraduate or graduate program.

UPV locations

GANDIA CAMPUS

Gandia, located on the eastern coast of Spain, is a popular tourist destination known for its stunning beaches, warm Mediterranean climate, and vibrant cultural scene. Attracting over half a million tourists annually, Gandia offers an ideal balance between academic life and leisure. The city's sunny beaches and scenic landscapes make it an appealing location for students and visitors seeking both intellectual and recreational experiences.

AFTER SPANISH FOUNDATION PROGRAM

BACHELOR'S DEGREE PROGRAMS

Students with a valid high school diploma, an official B2 Spanish proficiency certificate, and who meet all other admission requirements are eligible to apply for the following bachelor's degree programs.

*Business Administration and Management *Chemical Engineering *Electrical Engineering *Environmental Sciences *Forest and Environmental Engineering *Geomatics and Surveying Engineering *Industrial Computing and Robotics *Interactive Technologies *Technical Architecture *Telecommunications Systems, Sound and Image Engineering *Tourism

TUITION FEE PER YEAR: €1,600 - €2,400

SEAMIC - BACHELOR'S DEGREE PROGRAM IN ENGLISH

SEAMIC is the most innovative degree program offered at UPV. It is an engineering degree taught in English, where students have the opportunity to start working in multinational companies from the second year. Although the classes are taught in English, it is mandatory to take a Spanish course to be able to communicate effectively with colleagues in the assigned company.

**TUITION FEE YEAR 1 (Spanish Foundation+SEAMIC):
€12,500 - €18,000**

TUITION FEE YEAR 2-3-4: €6,000/YEAR

MASTER'S DEGREE PROGRAMS

Students must first submit their application to the master's program. Upon admission to the program, they may initiate the Spanish foundation program. After successful completion of the official B2 level, students will be eligible to commence their master's programs. The duration of a master's program varies depending on the major, typically ranging from 1 to 2 years.

*Sports Management and Active Tourism *Sports Company Management *Agrifood and Environmental Economy *Computer network and Engineering *Concrete Engineering *Conservation and Restoration of Cultural Heritage *Environmental Engineering *Forest Engineering *Geomatics Engineering and Geographic Information Systems *Languages and Technology *Tourism Intelligence * Materials Engineering *Textile Engineering *Master in Organization and Logistics Engineering
